

# NUVO®

Fill your home with  
high fidelity music.

A Group brand |  legrand®

Listen to digital music in  
every room from any source

# Connect

The NUVO wireless multi-room audio system is based around robust dual band wireless players which communicate with your internet access point and one another. This means that you can access your music or stream audio from countless online options. The player also features a USB port for flash/hard drives.

Get your home builder or electrical contractor to include the high-fidelity NUVO system in your new home multi-room sound diffusion. The solution is flexible: a builder or contractor can expand the NUVO system by adding in the other zones for your future requirements.

# Control

## NUVO Player app.

The app automatically displays your favorite music services and artists for fast, simple browsing. In an instant, you have the world of music right at your fingertips. The NUVO player app is available free on Google Play or the App Store.

# Play

High-fidelity NUVO in-ceiling speakers

P100 Player

P200 Player

Designed by musicians, our state-of-the-art wireless player amplifiers are optimised for lossless digital signal flow, ensuring that every detail of your music arrives to the high-fidelity NUVO speakers just as the artist intended. NUVO in-ceiling speakers are perfect to deliver this quality digital sound, while presenting a discreet profile. Easily access your iTunes and Windows media libraries, streaming online radio stations, and content from your personal devices. Every zone can play its own selection or be synchronised. Welcome to your all-access pass to a limitless gallery of music.

Streaming services subject to geographic availability

\* Applies to P200 only
