How to use this catalogue

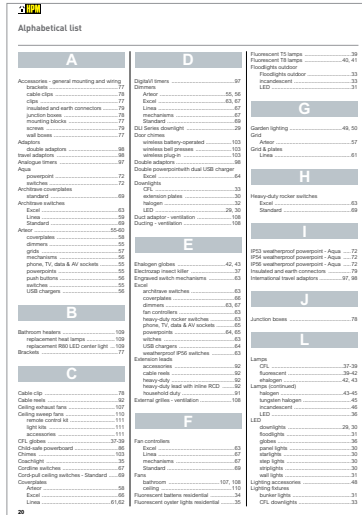

Welcome to Edition 2 for 2019 of the HPM Retail Catalogue. This catalogue provides an overview of the wide range of products we offer that are designed to support your business, and has been divided in sections for quick and easy navigation.

Table of contents

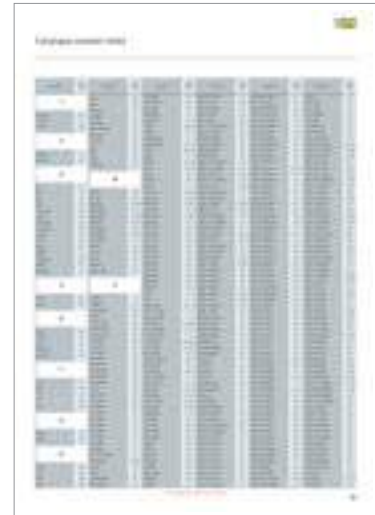

Provides an outline of content in each section. The coloured bars correspond to the colour of each catalogue section for easy navigation.

Alphabetical index

Contains a list of alphabetically listed general descriptions to find products easily.

Alphanumeric index

Contains an alphanumeric list of catalogue numbers, page numbers and quantities. The indexes start with numeric catalogue numbers then proceed to catalogue numbers with letters.

Packaging information

Contains information relating to product packaging along with examples.

Section index

Found at the beginning of each section to provide a breakdown of product categories with page numbers.

Technical references

Contains technical information, specifications and drawings on selected products.

Information icons

Information icons

The following icons appear adjacent to the product descriptions to highlight information about a particular product

- New product** Exciting new additions to our wide range of products.
- Energy Saving products** The HPM team has identified these products as possibly contributing to energy savings.
- More info available** More information available in the Technical section.
- Coming soon** Exciting new products that will be added to the range after this catalogue is printed.
- Product to be discontinued** Advanced information that the product will be discontinued in the near future.
- New Zealand** Product only available in New Zealand.
- Customer Special Order** Lines special orders as trade pack
- IC-4/F** **Insulation Rating** Insulation may abut or cover the LED luminaire

Lighting & sensors solutions

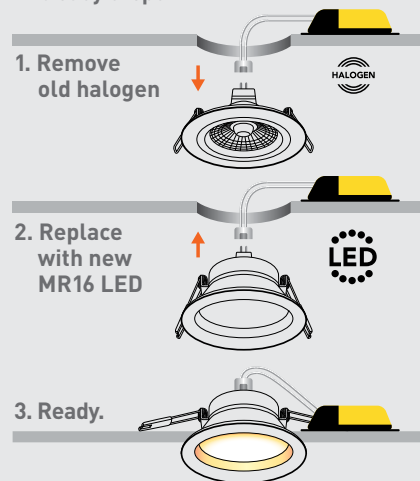

MR16 LED RETROFIT DOWNLIGHTS

Upgrade old halogen downlights easily with **HPM MR16 Retrofit LED downlights** and enjoy maximum brightness, a contemporary sleek design and up to **70% energy savings**.

"Do It Yourself" installation in 3 easy steps:

LED LIGHTING FIXTURES

Create ambience and make a space feel more beautiful with our task lighting superstars. Whether you're after ceiling lights, downlights or a decorative wall light, we've got you covered.

LED GLOBES

Replace your old globes with our long-lasting LED alternatives and start saving energy, pronto. Whether you need a PAR38 or an A60, we are expanding our range everyday to cover your needs.

FLOODLIGHTS

If you're lighting a suburban backyard, it's not usually the size of a football field, so you won't need the power and expense of a commercial floodlight. You need something that's fit for purpose. That's where we can help.

Insulation Contact (IC) recessed luminaire - building insulation that can be continuously exposed to 90°C, can safely abut and cover the luminaire

Insulation Contact - Fire Resistant (IC-4) recessed luminaire - building insulation that can be continuously exposed to 90°C can safely abut and cover the luminaire. Additionally, IC-4 rated downlights have to pass a 1mm probe test i.e. a 1mm diameter probe cannot enter any part of the luminaire and in effect no insulation or any other material can enter the fitting.

Switches & sockets solutions

ARTEOR™ DETAILS COUNT

We want you to enjoy a little luxury everyday and flaunt your enviable style. We've scoured the globe to bring you a range of exclusive materials to add that "finishing touch" – transforming the boring to breathtaking. Arteor is a testament to your impeccable eye for detail.

VIVO™ I'M SLEEK & SQUARE, SWITCH TO VIVO

Bold, striking and refreshing – choose the colour for your character. Excel VIVO™ can be customised to suit your taste and your interiors. Keep it simple with traditional rocker switches and white coverplates, or add a designer's edge with the coloured plates to transform your wall from boring to breathtaking

EXCEL THE CLASSIC ALL-ROUNDER

The 80s brought us cassette tapes, hyper-colour, WHAM, shoulder pads, Miami Vice, big hair and the best-selling Excel range of switches & sockets. It was the first range on the market with removable snap-on, snap-off coverplates which made painting easier and allowed people to mix and match coverplate colours according to decor. Cassette tapes are long gone, hair spray sales have plummeted, but Excel has prevailed. Classic design endures.

AQUA™ I'M WEATHERPROOF & ROBUST, SWITCH TO AQUA

With a proud Aussie culture of backyard BBQs, outdoor sports and beers by the pool, having reliable outdoor power has always been the standard. Our beloved sunburnt country is famous for its rugged beauty, but electrical goods bear the brunt of this magnificent, yet tough landscape. Our Aqua range of weatherproof switches has been carefully crafted to suit these environments

*HPM manufacture over 4,500 products in its factory in Prestons, NSW.

General wiring accessories solutions

INSTALLATION ACCESSORIES PRODUCTS THAT KEEP YOU PLUGGED-IN

The unsung heroes of electrical accessories. Unlike USB sockets, they fail to win media flattery. Unlike decorative lighting, they fail to woo social media likes. Alas, we guarantee they lurk everywhere, doing their thing, and keeping you comfortable in one way or another.

PLUG TOPS

We've been making plug tops for more than 60 years. Our first plug tops graced the ends of the Aussie Sunbeam mixmasters. We're always surprised where our products end up - they top all sorts of inventions, the humble and the grand.

PLUG BASES BEHIND EVERY GREAT LIGHT, THERE'S A PLUG BASE

When you're installing a gazillion luminaires, you need a plug base that's super easy to fit-off. That's where we come in. We work with electricians to ensure your everyday essentials are easy to install, and keep on working long after you've retired.

FAST CONNECTOR RELIABLE, SAFE AND FAST

HPM's fast-connect socket 37QC is fully compatible with the updated standard AS/NZS3112:2017: "Insulation piercing terminals or connecting devices shall conform to the relevant requirements of AS/NZS IEC 60998.2.3."

Powerboards solutions

GENERAL WE MAKE PRODUCTS TO KEEP YOU MULTI-TASKING

Powerboards are the ultimate multi-taskers. Behind every great building, fashion shoot, lead singer, surfboard shaper, and time-based video artist, we swear there is a powerboard. A basic powerboard for those who prefer outlets with switches to protect your computing and entertainment equipment or if you have lots of chunky transformers that demand extra space between outlets.

USB POWERBOARDS

Save space! Forget bulky adaptors, plug your USB cords straight into the two neat USB outlets on this powerboard. These are the new standard for general, everyday powerboards. Accept nothing less.

PLUG BOSS

Ideal for workshops and those who love heavy duty, industrial style design. This rugged, durable powerboard features a protective finish to withstand knocks and scrapes and a large hanging hook to give you more flexibility to position power where you need it. It also features a cord wrapping channel to help you keep the cord neat or a 'parking clip' to help prevent the lead unravelling when not in use.

POWERCENTRE

There are strict rules about what goes on a construction site, and our powercentres meet all of them. This unit features four 10A double pole powerpoints with safety shutters, along with the best quality lead and residual current protection. Keep safe, add it to your kit.

Extension leads solutions

HOUSEHOLD HOUSEHOLD DUTY EXTENSION LEADS WITH PIGGY-BACK PLUG

A clever, everyday extension lead for the home or office. It features a convenient piggy-back plug, so you can turn one power outlet into two by plugging in other devices on the back of the plug top.

HEAVY DUTY

If you love spending hours in your workshop making furniture, shaping surfboards, inventing gadgets or creating film sets, PlugBoss leads could become your favourites. They feature a handy clamping socket which locks the two ends of the lead together to prevent the frustration caused by leads coming apart.

EXTRA HEAVY DUTY

These are ideal when you need a little extra durability, but don't wish to lug around the super heavy construction grade leads. They feature a handy clamping socket, that locks the two ends of the lead together to prevent the frustration and downtime caused by leads coming apart.

CARAVAN

A carefree life on the road travelling our rugged, beautiful country requires the best quality gear. To keep yourself safe, and to ensure you're powered wherever you wander, pack these extension leads in your kit.

CABLE REELS

Whether in the studio, concert hall, building site or at home, our cable reels are the best. Thicker, UV stabilised insulation and 100% copper wiring is what separates our cable reels from the el-cheapos. They are tougher, safer, less likely to catch fire or crack under the midday sun.

USB chargers, timers & adaptors solutions

CHARGING SOLUTIONS CHARGE 5 DEVICES QUICKLY AND EASILY

Recharge up to 71% of your cell phone battery in 30mins with fast charging up to 80W of power. Ultra slim and curved design, compact and portable with multiple safety protection and compatible with Quick Charge 3.0 and Power Delivery 2.0 specifications.

WHY HPM USB?

2 x 1A or 2 x 2.4A sockets for faster charging

Charge 2 x smartphones or 2 x tablets or MP3/4 players simultaneously at the maximum charging speed

Perfect for keeping mobile devices charged while travelling

TYPE C ACCESSORIES ON THE GO

Switch between USB-C and USB-A devices with the universal cable. Charge and synchronise data at a fast data transfer rate. Designed to last, perfect weight and size to carry with you.

TIMERS WE MAKE PRODUCTS TO SAVE YOU TIME AND MONEY

Remembering to turn off devices can be a hassle. Save yourself time and brain space, try one of these simple, easy to use timers. They are ideal for magically turning on and off devices like Christmas lights, pool pumps, heaters, and coffee machines.

Door chimes solutions

BATTERY OPERATED WE MAKE PRODUCTS FOR D.I.Y.

A simple, battery operated door chime. With no wiring, you can place them wherever you wish, or carry them with you so you never miss a delivery, or a visiting friend. Featuring a flashing light function, they are useful in circumstances when you cannot hear the door chime tune.

PLUG-IN A PRACTICAL, D.I.Y. DOOR CHIME

Featuring a piggy-back socket, you can use it as an additional socket for vacuum cleaners, lamps - anything you need. It also features a flashing light function, which comes in handy for circumstances when you cannot hear the door chime tune.

CONNECTED DOORBELL

If your bell press has been damaged, graffitied or has disappeared into thin air, we've got you covered. This bell press is suitable for use with any of the door chimes in our D641 series.

Ventilation solutions

SWEEP FANS STAY COOL

Something about ceiling fans evokes the sexiness of sultry summer nights in tropical destinations. By whisking away moisture from your skin, they provide sigh-worthy relief from the feeling of being strangled by humidity. We've designed our fans to be reliable, discreet wonders.

EXHAUST FANS KEEPING ROOMS FRESH

We all hate mould. For healthy air, great ventilation is essential. It helps prevent deadly mould from sprawling an evil path across your walls and ceilings. Whisk away bad odours and minimise condensation with these classic exhaust fans.

INSTANT HEAT KEEPING BATHROOMS HEALTHY AND WARM

Relish the toasty comfort of heat lamps. We vote these should be mandatory in all bathrooms prone to winter chills. Including heat lamps, exhaust fan & lights. These stylish units can create the perfect environment for your whims, whatever the reason or season.

DOWNLIGHTS (LIGHTING)

How to choose a downlight in 6 steps

SWITCHES & SOCKETS

Product dimensions, wiring diagrams, mounting centres and dimmer characteristics

EXHAUST FANS

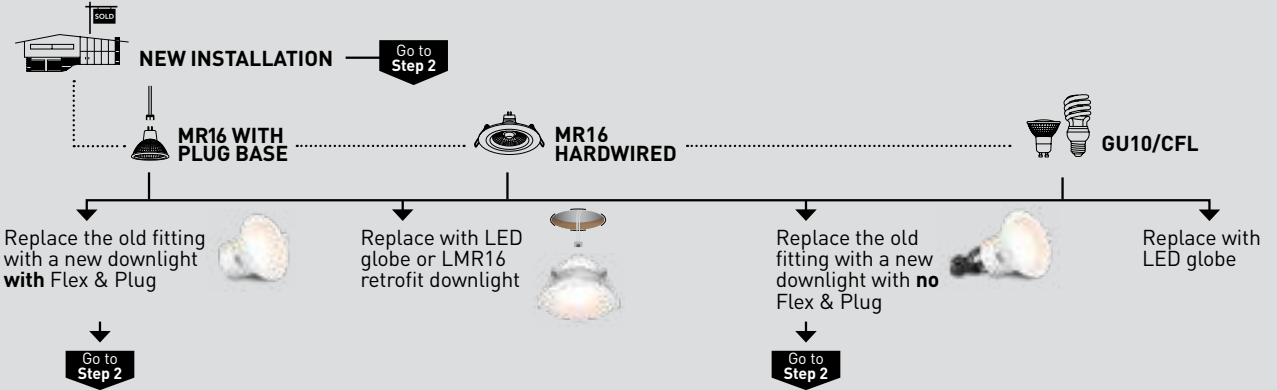

Installation guidelines, compatibility and wiring diagrams

How to choose a downlight

STEP 1

Are you replacing an existing downlight or is this a new installation?

STEP 2

What size ceiling hole are you replacing or want to install?

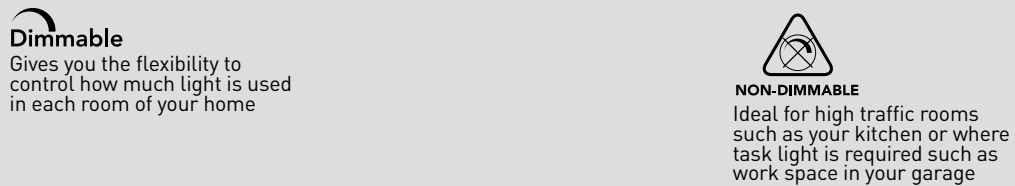

LIGHT OUTPUT TABLE

	GU10 Globe	MR16 Globe	70mm LED Downlight	MR16 Globe	Retrofit LED Downlight	90mm LED downlight
Wattage	50W	35W	5-7W	50W	7-9W	7-12W
Lumens	300 lm	400 lm	500-600 lm	600 lm	600-800 lm	750-900 lm

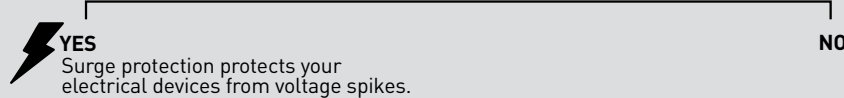

STEP 3

Do you want your downlight to be dimmable or non-dimmable?

STEP 4

Do you require the downlight to have Surge Protection?

STEP 5

What colour do you want the downlight to be?

WARM WHITE 3,000K
Creates an inviting and relaxing mood making it the perfect choice for living areas and bedrooms

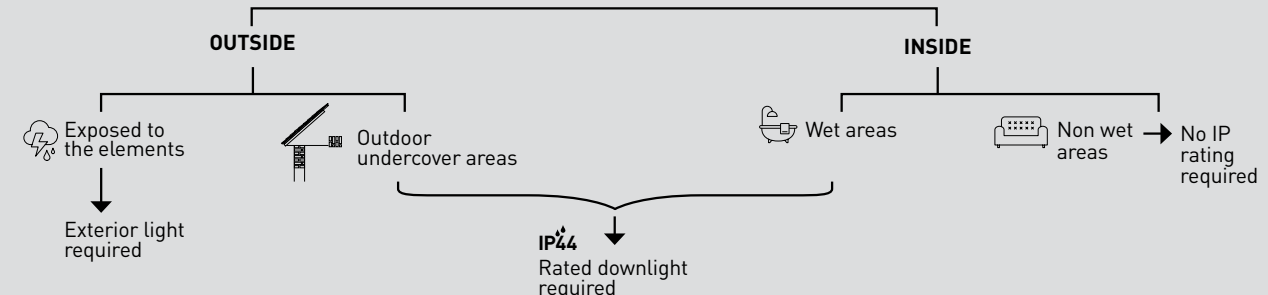

COOL WHITE 4,000K
If you want a bright and clean light, great for kitchens and workspaces then Cool White is the best choice

NATURAL LIGHT 5,000K
This colour light is crisp and refreshing making it ideal for reading and task lighting

DAY LIGHT 6,500K
Best in bathrooms, kitchens and basements; good for reading, intricate projects, or applying makeup

STEP 6

Where is this downlight going to go?

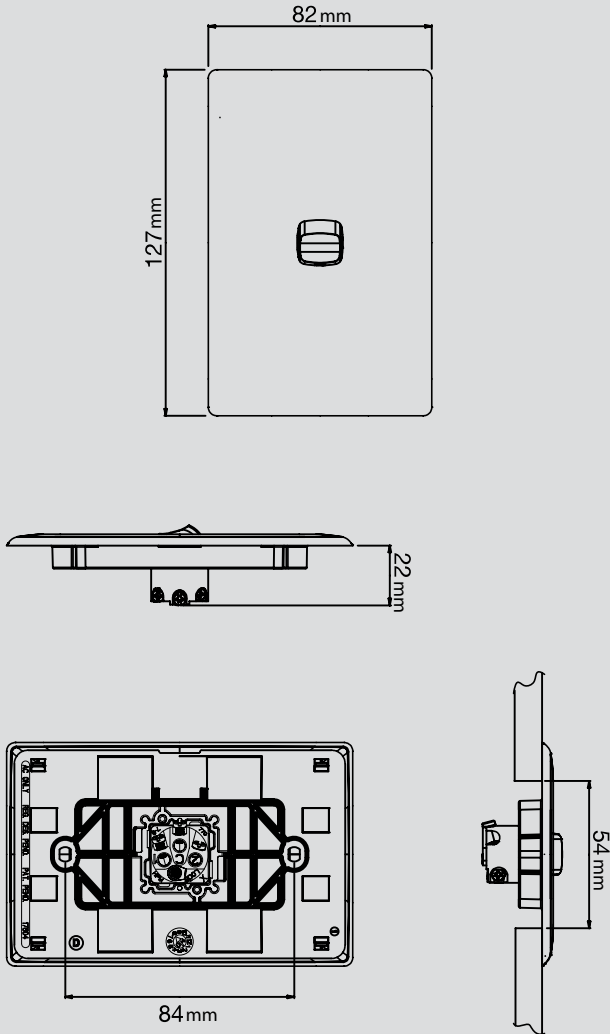

Linea - vertical switches 10A with 84mm mounting centres

Cat No. CDLN770/1

■ Dimensions

Cat No. CDLN770/1

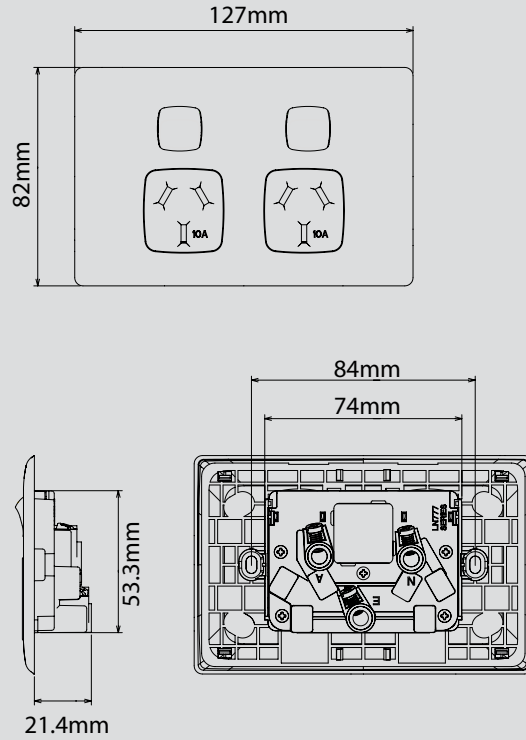

Linea - double powerpoints 10A with 84mm mounting centres

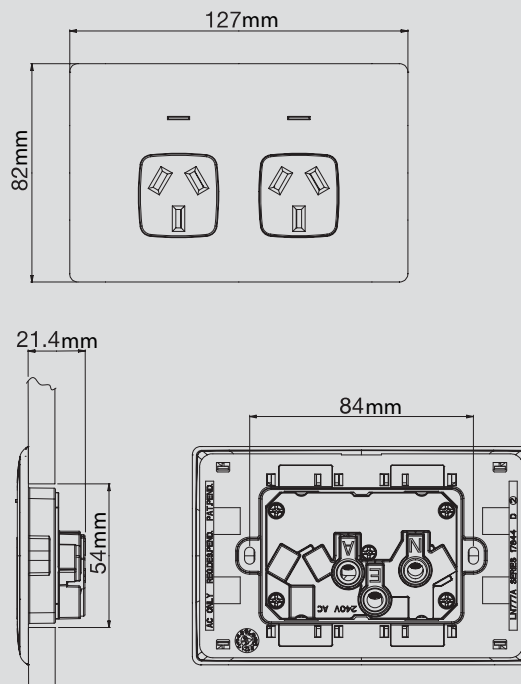

Cat No. CDLN777, CDLN777A

■ Dimensions

Cat No. CDLN777

Cat No. CDLN777A (autoswitch)

Excel - dimmers

Cat No. XL250L, XL250T, XL400L, XL400T

■ Specification table

Cat No.	Type	Maximum load	Minimum load	Incandescent	240V linear halogen	GU10 240V halogen downlights	Low voltage halogen with wirewound (Iron Core) transformers*	Low voltage halogen with electronic transformers	Ceiling fan
XL250L	Leading edge	250VA	10VA	✓	✓	✓	✓	✗	✗
XL250T	Trailing edge	250VA	10VA	✓	✓	✗	✗	✓	✗
XL400L	Leading edge	400VA	10VA	✓	✓	✓	✓	✗	✗
XL400T	Trailing edge	400VA	10VA	✓	✓	✗	✗	✓	✗

■ Note

Some electronic transformers state that they are compatible with Leading Edge Dimmers. However, significant derating of the dimmer is usually required. Therefore, HPM recommends the use of Trailing Edge Dimmers (HPM Cat No. XL250T, XL400T) for these applications. If it is necessary to use a Leading Edge Dimmer, then please refer to the Dimming Electronic Transformers information sheet enclosed with the product.

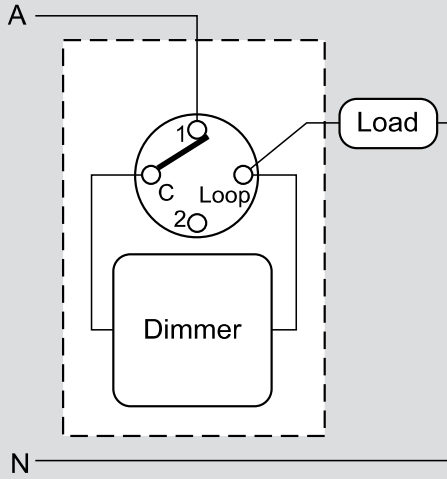

* When using wirewound transformers, ensure the transformers are marked "suitable for dimming" and derate the dimmer by 20%.

Cat No. 790

Ducted ceiling exhaust fan installation guidelines

Cat No. EFD01 series

Exhaust fan wiring rules

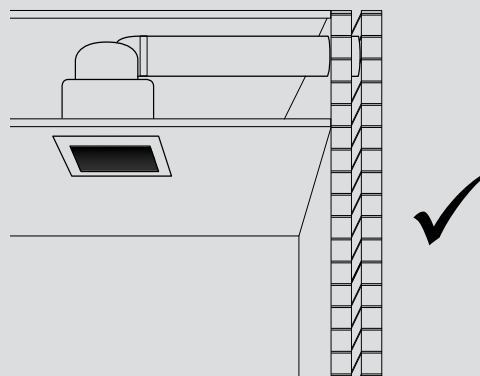

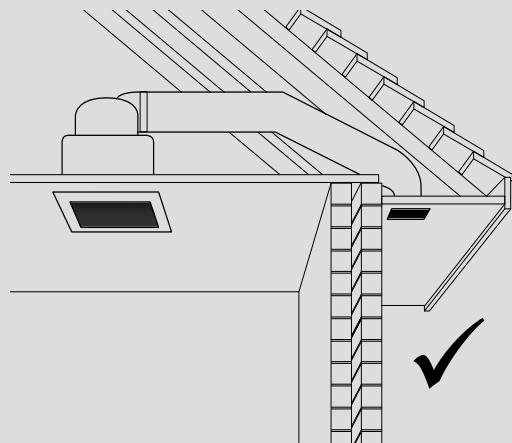

The EFD01 series shall be installed in accordance with the requirements relating to Section 6 Damp Situation of AS/NZS 3000:2007 Wiring Rules. No part of the unit may be located directly above any part of the bath or shower recess or enclosure. Please refer to diagrams: units must be installed within zones 2 and 3 only.

Exhaust fan correct installation:

1. Unit Orientation: the unit must be installed to ensure the housing outlet and ducting is oriented in parallel to any roofing structures or supports. Any 90° bend in the duct will cause performance reduction.
2. Duct Size: we recommend the unit to be installed with 150mm duct to ensure optimum extraction and performance.
3. Cross Ventilation: Air will only be exhausted if there is sufficient flow through the room. Ensure adequate air inlets exist through windows, vents or under the door.
4. Duct Outlet: Airflow will be reduced with pressure differentials between the room and outside air.

The duct outlet must be the same height or lower than the exhaust fan. The duct must not be installed vertically into a roof vent cap.

Time delay module for wall exhaust fans 100mm and 150mm

Cat no. EF100/150TD

Compatibility

EF100/150TD is suitable to be fitted on the following wall exhaust fans. Time delay module allows the fan to run for a set period, adjustable between 1 - 29 min, after the switch has been turned off.

EF100SQWE
EF150SQWE
EFS150SQWE

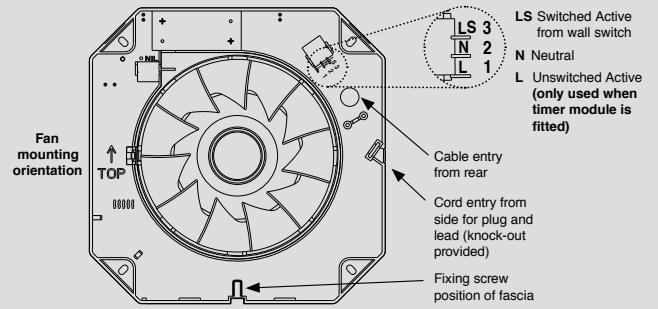

EF100SQSWE
EF150SQSWE
EFS150SQSWE

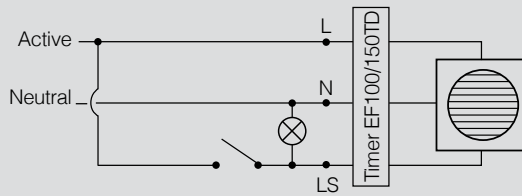

EF100RDWE
EF150RDWE

Fan mounting orientation

Fan with timer module and light fitting

Connection from rear – bring mains wiring through cable entry hole.

Connection from side (Fan only) – use twin flat core (H03VV-H2) or circular core (H05VV-F) 2 x 0.75mm² and place under cable clamp provided.

HPM

The product partner you can TRUST

Whether you are buying, installing or using HPM products you can be assured they comply to all the required Australian and New Zealand standards of manufacturing quality and electrical safety.

HPM features in Prestons, NSW head office:

- local manufacturing of over 4,500 products
- a dedicated team and two accredited NATA laboratories to conduct compliance tests
- over 20 R&D engineers dedicated to the development of new products

All HPM compliance certifications and approvals are available on either the Electrical Regulatory Authorities Council certification database "erac.gov.au/public" or the NSW office of Fair Trading database "eapr.fairtrading.nsw.gov.au/default.aspx." For access to New Zealand Supplier Declarations of Conformity (SDoCs) please visit www.hpm.co.nz

A photograph of a dining room. In the foreground, a white square switch plate with a circular rocker switch is shown at an angle. The room features a wooden dining table with a light-colored top and legs, a wooden chair, and a grey chair. Three copper-colored pendant lights hang from the ceiling. A window with a grid pattern is visible in the background. A speech bubble is overlaid on the left side of the image.
